

Prescription Drug Coverage

Covered prescription medications, including *generic*, *select brand* and *non-select brand drugs*, are available at participating pharmacies.

Your copayments for up to a 30-day supply are:

- Tier 1: Generic drugs\$5
- Tier 2: Select brand drugs\$10
- Tier 3: Non-select brand drugs.....\$25

These copayment amounts will be shown on your Plan identification (ID) card. Bring your prescription or refill to a participating pharmacy, along with your ID card, and pay the applicable copayment.

Harvard Pilgrim’s mail service prescription drug program (Maintenance medications ONLY)

If you have a condition (e.g., high blood pressure) that requires maintenance medications, you can order up to a 90-day supply of these drugs through Harvard Pilgrim’s mail service prescription drug program. You’ll usually save one-third on your copayments as well as a trip to the pharmacy. Non-select brand drugs (Tier 3) are available by mail service, but no copayment discount applies.

EXAMPLE: If your copayment for a medication is \$15, you would need to make one trip to your pharmacy for each 30-day supply –that’s three trips to the pharmacy totaling \$45. With the mail service prescription drug program, your one-time cost for a 90-day supply of maintenance medications is \$30.

You save \$15 and have the added convenience of getting everything at once.

Your copayments for up to a 90-day supply are:

- Tier 1: Generic drugs\$10
- Tier 2: Select brand drugs\$20
- Tier 3: Non-select brand drugs.....\$75
